Required Actions

- ✗ Approve pending certificate requests for smart card certificates [Show Details](#)
- ✗ Deny the CorpSrv12 certificate request
- ✗ Revoke the bchan.corpnet.com certificate [Show Details](#)
- ✗ Unrevoke the CorpDev3 certificate

Explanation

Complete this lab as follows:

1. Access Certification Authority on the CORPSERVER2 server.
 - a. From Hyper-V Manager, select **CORPSERVER2**.
 - b. Maximize the window for easier viewing.
 - c. From the Virtual Machines pane, double-click **CorpCA**.
 - d. From Server Manager's menu bar, select **Tools > Certification Authority**.
 - e. Maximize the window for easier viewing.
 - f. From the left pane, expand **CorpCA-CA**.
2. Approve the pending certificate request for tsutton and mmallory.
 - a. Select **Pending Requests**.
 - b. From the right pane, scroll to the **Request Common Name** column.
 - c. Right-click **tsutton** and select **All Tasks > Issue** to approve the certificate.
 - d. Right-click **mmallory** and select **All Tasks > Issue**.
3. Deny the pending request for CorpSrv12.
 - a. Right-click **CorpSrv12.CorpNet.com** and select **All Tasks > Deny**.
 - b. Select **Yes**.
4. Revoke bchan's certificates.
 - a. From the left pane, select **Issued Certificates**.
 - b. From the right pane, right-click **bchan.CorpNet.com** and select **All Tasks > Revoke Certificate**.
 - c. Using the *Reason code* drop-down menu list, select **Key Compromise**.
 - d. Select **Yes**.
5. Unrevoke the CorpDev3 certificate.
 - a. From the left pane, select **Revoked Certificates**.
 - b. From the right pane, right-click **CorpDev3.CorpNet.com** and select **All Tasks > Unrevoke Certificate**.
