Required Score: 100%

Task Summary

Required Actions

- ✗ Create the Workstation Settings GPO
- ✗ Link the GPO to the TempMarketing OU
- ✗ Link the GPO to the TempSales OU
- ✗ Link the GPO to the Support OU
- ✗ Import the policy from C:\Templates\ws_sec.inf

Explanation

While completing this lab, you need the following information:

- Link the Workstation Settings GPO to the following organizational units (OUs):
 - **Marketing > TempMarketing**
 - **Sales > TempSales**
 - **Support**
- Import the **ws_sec.inf** template file located in **C:\Templates**.

Complete this lab as follows:

1. Access the CorpNet.local domain.
 - a. From Server Manager, select **Tools > Group Policy Management**.
 - b. Expand **Forest: CorpNet.local > Domains > CorpNet.local**.
 - c. Maximize the window for better viewing.
2. Create the Workstation Settings GPO and link it to the CorpNet.local domain.
 - a. Right-click the **Group Policy Objects** OU and select **New**.
 - b. In the Name field, enter the **Workstation Settings** and then click **OK**.
3. Link OUs to the Workstation Settings GPO.
 - a. Right-click the **OU** and select **Link an Existing GPO**.
 - b. Under Group Policy Objects, select **Workstation Settings** from the list and then click **OK**.
 - c. Repeat step 3 to link the additional OUs.
4. Import the ws_sec.inf security policy template.
 - a. Expand **Group Policy Objects**.
 - b. Right-click **Workstation Settings** and select **Edit**.
 - c. Under Computer Configuration, expand **Policies > Windows Settings**.
 - d. Right-click **Security Settings** and select **Import Policy**.
 - e. Browse to the **C:\Templates**.
 - f. Select **ws_sec.inf** and then click **Open**.
