

## 6.6.6 Restrict Local Accounts

---

### Your Performance

Your Score: 0 of 5 (0%)

Elapsed Time: 3 minutes 2 seconds

Pass Status: **Not Passed**

Required Score: 100%

### Task Summary

#### Required Actions

- ✗ Create the Administrators (built-in) local group
- ✗ Select Delete all member users
- ✗ Select Delete all member groups
- ✗ Add BUILTIN\Administrator to the group
- ✗ Add %DOMAINNAME%\Domain Admins to the group

### Explanation

Complete this lab as follows:

1. Access the **CorpNet.local** domain under Group Policy Management.
  - a. From Server Manager, select **Tools > Group Policy Management**.
  - b. Maximize the windows for better viewing.
  - c. Expand **Forest: CorpNet.local > Domains > CorpNet.local**.
2. Create a policy to update the built-in Administrator local group.
  - a. Right-click **Default Domain Policy** and select **Edit**.
  - b. Maximize the windows for better viewing.
  - c. Under Computer Configuration, expand **Preferences > Control Panel Settings**.
  - d. Right-click **Local Users and Groups** and select **New > Local Group**.
  - e. Using the *Group name* drop-down, select **Administrators (built-in)**.
  - f. Select **Delete all member users** to remove all member users.
  - g. Select **Delete all member groups** to remove all member groups.
  - h. Select **Add**.
  - i. In the *Name* field, enter **BUILTIN\Administrator** and then select **OK**.
  - j. Select **Add**.
  - k. In the *Name* field, enter **%DOMAINNAME%\Domain Admins** and then select **OK**.
  - l. Select **OK** to save the policy.
