

## 12.8.10 Backup a Domain Controller

---

### Your Performance

Your Score: 1 of 2 (50%)

Elapsed Time: 3 minutes 47 seconds

Pass Status: **Not Passed**

Required Score: 100%

### Task Summary

#### Required Actions

- ✓ Create a backup schedule [Show Details](#)
- ✗ Perform an immediate backup of the server [Show Details](#)

### Explanation

Complete this lab as follows:

1. Access Windows Server Backup on the CorpDC4 server.
  - a. From Hyper-V Manager, select **CORPSERVER2**.
  - b. From the Virtual Machines pane, double-click **CorpDC4**.
  - c. From the Server Manager menu bar, select **Tools > Windows Server Backup**.
  - d. Maximize the window for easier viewing.
2. Create a backup schedule.
  - a. From the left pane, select **Local Backup**.
  - b. From the far right pane, under Actions, select **Backup Schedule**.
  - c. Select **Next** in the wizard.
  - d. From the Select Backup Configuration window, select **Custom**; then select **Next**.
  - e. Select **Add items**.
  - f. Select **System state**; then select **OK**.
  - g. Select **Next**.
  - h. Make sure **Once a day** is selected.
  - i. Using the Select time of day drop-down list, select **1:00 AM**; then select **Next**.
  - j. Select **Back up to a shared network folder**; then select **Next**.
  - k. Read the warning message; then select **OK**.
  - l. In the Location field, enter **\CorpFiles\Backup**; then select **Next**.
  - m. Select **Finish**.
  - n. Select **Close**.
3. Perform an immediate backup.
  - a. From the far right pane, under Actions, select **Backup Once**.
  - b. From the Backup Options window, select **Different options**; then select **Next**.
  - c. From the Select Backup Configuration window, select **Custom**; then select **Next**.
  - d. Select **Add items**.
  - e. Select **System state**.
  - f. Select **Local Disk (C:)**.
  - g. Select **OK**.
  - h. Select **Next**.
  - i. Select **Remote shared folder**; then select **Next**.
  - j. In the Location field, enter **\CorpFiles\Backup**; then select **Next**.
  - k. Select **Backup** to start the backup.
  - l. When the backup is complete, select **Close**.
