10.1.5 Allow SSL Connections

Your Performance

Your Score: 3 of 3 (100%)   Pass Status: **Pass**

Elapsed Time: 2 minutes 37 seconds   Required Score: 100%

Task Summary

Required Actions

✔ Add a binding for HTTPS

✔ Use port 443 for HTTPS

✔ Use the www.corpnet.com certificate for SSL

Explanation

Complete this lab as follows:

1. Open the IIS Manager to the CorpNet.xyz site.
    a. From the Server Manager's menu bar, select **Tools** > **Internet Information Services (IIS) Manager**.
    b. Expand **CorpWeb(CorpNet.com\Administrator)** > **Sites**.
    c. Select **CorpNet.xyz**.

2. Add a binding to the CorpNet website.
    a. From the Actions pane (far right), select **Bindings**.
    b. Select **Add**.
    c. Using the Type drop-down menu, select **HTTPS**.
    d. Make sure the port is set to **443**.
    e. Using the *SSL certificate* drop-down menu, select **www.CorpNet.xyz** and then select **OK**.
    f. Select **Close**.
